PERSONAL PROJECTS

➡ SHOP-HUB E-COMMERCE WEBSITE | 2023

- Created a responsive e-commerce site using HTML, CSS, and JavaScript with features like product listings and add-to-cart functionality. Focused on clean UI/UX and mobile-friendly design to showcase frontend development skills.

    Live-Preview: Shop-Hub E-commerce

➡ AI Chatbot – Web-Based Chat Interface | 2024

- Built a simple AI chatbot using HTML, CSS, and JavaScript to simulate basic human-like conversations.
- The project features a clean and responsive chat UI where users can interact with the bot in real time. JavaScript handles message handling and bot replies using predefined logic. This project showcases my understanding of DOM manipulation, event handling, and frontend user interaction.

    Live-Preview: AI- CHATBOT

➡ IoT-Based Fire Alarm System | 2024

- Designed and developed a fire alarm system using IoT components such as temperature and smoke sensors, microcontrollers (Arduino UNO), and real-time alerts. The system detects fire-related conditions and sends instant notifications to users, enhancing safety and response time. This project demonstrates practical knowledge of embedded systems, sensor integration, and IoT communication.

EDUCATION

BACHELOR OF COMPUTER APPLICATION

Silver Oak College Of Computer Application (SOCCA)

- CGPA: 9.22
- 2023-2025

SKILLS

React.js Node.js MongoDB MYSQL Problem Solving Leadership
